

2024 NCBJ CARE Liaison Committee
Annual Report
By: Hon. Janet S Baer (NDIL)

It has been a quiet and inactive time for the CARE Liaison Committee. The executive director of the national CARE organization, Tammy Hettinger, left CARE in early 2023. Since that time, the national organization has been in the process of potentially transitioning its operations to a similar not-for-profit organization who will support CARE's national platform. In the meantime, the local CARE chapters continue their work in the schools with the support of many bankruptcy judges and restructuring professionals and others throughout the country. The Chicago and Los Angeles chapters continue to be especially active in making presentations at their local schools and community organizations. Those chapters are also assisting smaller chapters in organizing their programs in the absence of an active national platform.

I anticipate there will be an announcement from the CARE national organization at some point in the near future regarding its direction for 2024 and beyond.

Janet S Baer
